Work Experience

[trips2share (georgian bus)](#)   Tbilisi, Georgia

Frontend Developer   May 2024 – Present

- Redesigned the entire website, including the main site and admin panel. Made the website responsive
- Created a design system for the website with standard values for fonts, colors, spacings and more for consistency
- Added new features to improve website and came up with ideas to make the user experience better, implementing those changes. Fixed issues to ensure smooth operation and collaborated with the team to discuss and resolve challenges, continually improving the website.

[Munich International Mining](#)   Tbilisi, Georgia

Junior Frontend Developer   Aug 2023 – May 2024

- Updated and maintained the company's website and admin panel, focusing on functionality and UX improvements
- Assisted in generating design ideas and features, translating them into functional web designs. Took part in team meetings, helping to come up with ideas and solve problems to meet project goals.

Exadel Frontend Individual Mentorship   Tbilisi, Georgia

React, JavaScript, HTML, CSS, Git   Apr 2024

Google UX Design Specialization   Tbilisi,Georgia

UX Design Fundamentals, Human-Centered Design   Oct 2023

Projects

plintus.ge

Plintus.ge is an informative website about baseboards, designed and developed to meet the client's needs. I handled the entire design process, from choosing the color scheme to building the site, ensuring a cohesive and attractive look

gamoitsani.info

Gamoitsani.info is the official site for the Gamoitsani iOS app, providing all the app's details and how to use it. I fully designed and built the site from scratch, with a clean color scheme for an easy and enjoyable browsing experience

Skills

Frontend**:**   HTML / CSS / JavaScript / React.js / Next.js
Additional Skills: Version Control / UI/UX Design (basic)

Languages

Georgian (Native), English (B2)
